Pro-8a

Both models feature two outlets, individually adjustable in 1/10 f-stop increments. Very wide power range. Remarkably stable light output and color temperature over range and from flash-to-flash. Extremely fast recycling, capable of firing up to 20 flashes per second. Flash duration down to 1/12,000 sec and kept short even at higher light output. Modeling light up to 2x500W. Built-in Profoto Air wireless sync and remote control with a range up to 300 m. Multi voltage 100-120V / 200-240V / 50-60Hz.

Product no.	Description	Price € exl. VAT
901001	**Pro-8a 1200 Air** Energy 1200 Ws. Energy control 5-1200Ws (9 f-stop). Recycle time 0.05-0.5 sec. Flash duration (t0.5) 1/12,000-1/2,200 sec. Delivered with power cable and synchro cable.Size: 34.5 x 18.5 x 25 cm / 13.6 x 7.3 x 9.8 in. Weight 11.4 kg/25.2 lbs.	€ 7 458
901002	**Pro-8a 2400 Air** Energy 2400 Ws. Energy control 5-2400Ws (10 f-stop). Recycle time 0.05-0.9 sec. Flash duration (t0.5) 1/12,000-1/1,600 sec. Delivered with power cable and synchro cable. Size: 37 x 18.5 x 25 cm / 14.5 x 173 x 9.8 in. Weight 12.2 kg/26.9lbs.	€ 9 349

	Accessories	
100217	**ProGas2** Device to protect flash equipment from fluctuating (high) input voltage. Recommended to use when flash equipment is powered from a 230V petrol electric generator.	€ 556

Pro Studio Generators

Products

Pro-B4 Air

All models feature two outlets, individually adjustable in 1/10 f-stop increments. Huge 11 f-stop power range. Extremely fast recycling, capable of firing up to 30 flashes per sec. Flash duration down to 1/25,000 sec and very short even at higher light output. Remarkably stable light output and color temperature over range and from flash-to-flash. Modeling light up to 1x500W or 2x250W. Built-in Profoto Air wireless sync and remote control with a range up to 300 m. Lithium-Ion battery provides up to 220 full power flashes per battery charge. Battery recharges in just 45 minutes with standard charger and can be charged while in use.

Product no.	Description	Price € exl. VAT
901084	**Pro-B4 1000 Air** Energy 1000 Ws. Energy control 1-1000Ws (11 f-stop). Recycle time: 0.03-0.99 sec. Flash duration (t0.5): 1/25,000-1/2,000 sec. Delivered with battery and charger. Size: 31.5 x 18 x 25 cm / 12.4 x 7.1 x 9.8 in. Weight: 9.8 kg / 21.6 lbs. (incl. Battery)	€ 6 299
901089	**Pro-B4 1000 Air Kit incl. 2 batteries** Same as 901084 but delivered with 2 batteries.	€ 7 107

	Accessories	
900925	**Li-Ion Battery for Pro-B4** (Quick exchange battery cassette for Pro-B4, providing 220 full power flashes)	€ 876
100304	**Battery Quick Charger for Pro-B4** (Multivoltage charger for Pro-B4, recharges battery in 45 minutes, incl. mains cable)	€ 472
340208	**Pro-B4 Protective Bag** (fits one Pro-B4 with battery and charger)	€ 211

Heads for Pro & Pro-B Generators

Product no.	Description	Price € exl. VAT
900752	**ProHead Plus UV 250W, Zoom Reflector** Including Zoom reflector, flashtube, 250W modeling lamp, frosted 75mm glass cover, plastic transport cap and power handle. The head has a 5/8 inch stand adapter and a 4 m lamp cable. The new Plus version has been upgraded with improved lamphead connector, Perfect ARC flashtube, stand adapter and glass cover.	€ 1 696
900753	**ProHead Plus UV 500W, Zoom Reflector** Same as 900752 but with 500W modeling light and frosted 100mm glass cover.	€ 1 745
900719	**ProTwin UV 500 W, Magnum reflector** Including Magnum reflector, dual flashtubes, 500W modeling lamp, frosted 100mm glass cover, plastic transport cap and power handle. The head has a 5/8 inch stand adapter and a 4 m lamp cable.	€ 2 727
900755	**Pro-B Head Plus UV, Disc Reflector** Including Disc reflector, flashtube, 100W modeling lamp, frosted 75mm glass cover and plastic transport cap. The head has a 5/8 inch stand adapter and a 4 m lamp cable. The new Plus version has been upgraded with improved lamphead connector, Perfect ARC flashtube, stand adapter and glass cover. NOTE! Only for Pro battery generators, Max 100W modelling lamp.	€ 886
900794	**Pro-B Head Plus UV, Zoom Reflector** Same as 900755 but delivered with Zoom reflector.	€ 965
300514	**ProRing Plus UV** With flashtube and UV-coated protection glass. Adjustable L-bracket fits most DSLR and medium format cameras. 4m lamp cable. The new Plus version has been upgraded with an improved lamphead connector. NOTE! Max energy = 2400 Ws (9600 Ws/min). The flashtube is not user replaceable, needs to be exchanged at a Profoto service station.	€ 1 377
300519	**ProRing2 plus UV** With flashtube and protective steel mesh. 200W modeling light. Adjustable L-bracket fits most DSLR and medium format cameras. 4m lamp cable. The new Plus version has been upgraded with an improved lamphead connector. NOTE! Max energy = 2400 Ws.	€ 2 112

102014	**100 W. 120 V Halogen Mini-can E11 socket**	€ 22
100709	**Handle ProHead** (Power handle for easier head adjustment. Accessory for Pro-B Head Plus)	€ 39
100702	**Locking Device Kit** (2pcs, replacement springs to lock glass covers)	€ 9
101074	**Stand Adapter Plus 16 mm / 5/8 inch** (Pro Plus standard stand adapter for all standard Pro and Acute heads)	€ 35
301503	**Glass Cover Ringflash**	€ 27

D4 & Acute2 System
Generators, heads, kits & accessories

D4 & Acute2 Studio Generators

Products

D4 Air
All models feature four outlets, individually adjustable in 1/10 f-stop increments. Very wide power range. Unbeaten consistency in light output and color temperature over range and from flash-to-flash. Fast recycling, capable of firing up to 10 flashes per second. Optional sequence and delay settings. Modeling light up to 4x500W. Built-in Profoto Air wireless sync and remote control with a range up to 300 m. Multi voltage 100-120V / 200-240V / 50-60Hz.

Acute2R
All models have 3 outlets with symmetrical/ assymmetrical power distribution, adjustable over a 6 f-stop power range. Fast recycling. Modeling light up to 2x500W or 3x250W. Multivoltage 90-130V / 180-250V / 50/60Hz. The R-versions has PocketWizard 32-Channel/ Quad-Triggering Receiver built-in.

Product no.	Description	Price € exl. VAT
900891	**D4 1200 Air** Energy 1200 Ws. Energy control 9-1200Ws (8 f-stop). Recycle time: 0.07-1.2 sec. Flash duration (t0.5): 1/7,500-1/1,000 sec. Delivered with power cable and synchro cable. Size: 29 x 20 x 28 cm / 11.6 x 8 x 11.2 in. Weight: 10 kg / 22 lbs."	€ 6 477
900892	**D4 2400 Air** Energy 2400 Ws. Energy control 18-2400Ws (8 f-stop). Recycle time: 0.09-2.2 sec. Flash duration (t0.5): 1/4,500-1/600 sec. Delivered with power cable and synchro cable. Size: 32 x 20 x 28 cm / 12.8 x 8 x 11.2 in. Weight: 11.5 kg / 25 lbs."	€ 7 445
900893	**D4 4800 Air** Energy 4800 Ws. Energy control 38-4800Ws (8 f-stop). Recycle time: 0.12-4.4 sec. Flash duration (t0.5): 1/2,700-1/350 sec. Delivered with power cable and synchro cable. Size: 36 x 20 x 28 cm / 14.4 x 8 x 11.2 in. Weight: 13.5 kg / 29.5 lbs.".	€ 8 975
900773	**Acute2 1200** Energy 1200 Ws. Energy control 37.5-1200Ws (6 f-stop). Recycle time: 0.09-1.6 sec. Flash duration (t0.5): 1/3,200-1/350 sec. Delivered with power cable and synchro cable. Size: 22 x 19 x 13 cm / 8.7 x 7.5 x 5 in. Weight: 4.1 kg / 9 lbs."	€ 1 716
900775	**Acute2R 1200 344 MHz** Same as 900773 but with Pocket Wizard receiver built-in. Compatible with 344 MHz Pocket Wizard transmitters.	€ 2 132
900811	**Acute2R 1200 433 MHz** Same as 900773 but with Pocket Wizard receiver built-in. Compatible with 433 MHz Pocket Wizard transmitters.	€ 2 132
900774	**Acute2 2400** Energy 2400 Ws. Energy control 75-2400Ws (6 f-stop). Recycle time: 0.18-3.2 sec. Flash duration (t0.5): 1/1,800-1/320 sec. Delivered with power cable and synchro cable. Size: 30 x 19 x 13 cm / 11.7 x 7.5 x 5 in. Weight: 5.9 kg / 12.9 lbs"	€ 2 326
900776	**Acute2R 2400 344 MHz** Same as 900774 but with Pocket Wizard receiver built-in. Compatible with 344 MHz Pocket Wizard transmitters.	€ 2 742
900812	**Acute2R 2400 433 MHz.** Same as 900774 but with Pocket Wizard receiver built-in. Compatible with 433 MHz Pocket Wizard transmitters.	€ 2 742

	Accessories	
100281	**Dust cover D4 Generator** (Protects generator from dust in rough environments)	€ 77
103201	**USB Standard Cable 5 m** (for wire connection to computer when using Profoto Studio software)	€ 6

Heads for Acute2

Products

Heads for Acute2
The AcuteD4 Head, the AcuteD4 Twin and the AcuteD4 Ring are compatible with all Acute and D4 generators. The AcuteD4 heads have a compact, functional design and perform extremely consistent with the generators they are dedicated for.

Note: Modeling lamp should correspond to local mains voltage

Product no.	Description	Price € exl. VAT
900666	**AcuteD4 Head UV 230 V. 250 W** Including Zoom reflector, flashtube, 250W/230V modeling lamp, frosted 75mm glass cover and plastic transport cap. The head has a 5/8 inch stand adapter and a 4 m lamp cable.	€ 1 049
900669	**AcuteD4 Head UV 230 V. 500 W** Including Zoom reflector, flashtube, 500W/230V modeling lamp, frosted 100mm glass cover and plastic transport cap. The head has a 5/8 inch stand adapter and a 4 m lamp cable.	€ 1 092
900625	**AcuteD4 Head UNC 230 V. 250 W** Same as 900966 but with uncoated glass cover that provides a colder white light (+300K).	€ 1 042
900618	**AcuteD4 Head UNC 120 V. 250 W** Same as 900625 but with 120V modeling lamp.	€ 1 042
900678	**AcuteD4 Twin UV 230 V. 500 W** Including Magnum reflector, 2 flashtubes, 500W/230V modeling lamp, frosted 100mm glass cover and plastic transport cap. The head has a 5/8 inch stand adapter and a 4 m lamp cable.	€ 1 857
900619	**AcuteD4 Twin UNC 120 V. 500 W** Same as 900617 but with 120V modeling lamp.	€ 1 846
330513	**AcuteD4 Ring** Including flashtube and UV-coated protection glass. Adjustable L-bracket fits most DSLR and medium format cameras. 4m lamp cable. NOTE! Max energy = 2400 Ws (9600 Ws/min). The flashtube is not user replaceable, needs to be exchanged at a Profoto service station.	€ 873
330514	**AcuteD4 Ring UNC** Including flashtube and uncoated protection glass that privides a colder white light (+300K). Adjustable L-bracket fits most DSLR and medium format cameras. 4m lamp cable. NOTE! Max energy = 2400 Ws (9600 Ws/min). The flashtube is not user replaceable, needs to be exchanged at a Profoto service station.	€ 873

	Accessories	
100708	**Transport Protective Cap** (for ProHead, ProB Head and ProTwin, AcuteD4 Head, AcuteD4 Twin and AcuteB head)	€ 15

100702	**Locking Device Kit** (2pcs, replacement springs to lock glass covers)	€ 9
101074	**Stand Adapter Plus 16 mm / 5/8 inch** (Pro Plus standard stand adapter for all standard Pro and Acute heads)	€ 35
330211	**Bag S** Handy softpadded bag with shoulderstrap. Fits for example two D1 or B1 flashes or one AcuteB2 with an AcuteBHead.	€ 95

Off-Camera Flash System
B1, B2, kits & accessories

Off-Camera Flash
B1, B2 & kits

Products

B1 500 AirTTL

Cordless, battery-powered off-camera flash with TTL and HSS. The integrated and patent pending AirTTL technology takes the concept of "point and shoot" to the next level and also allows wireless sync and remote control with any optional Profoto Air transceiver. Powerful output adjustable in 1/10 f-stop increments over a 9 f-stop power range. Bright auto-proportional LED modeling light. An exchangeable, integrated Lithium-Ion battery provides up to 220 full-power flashes per charge. It is also fast. At lower power settings, the B1 will produce up to 20 flashes per second. Has a built-in reflector and umbrella holder. Compatible with more than 150 Light Shaping Tools.

B2 250 AirTTL

The B2 250 AirTTL is a portable off-camera flash built on the same concept as the award winning B1 with TTL and HSS. The integrated and patent pending AirTTL technology takes the concept of "point and shoot" to the next level and also allows wireless sync and remote control with any optional Profoto Air transceiver. Powerful output adjustable in 1/10 f-stop increments over a 9 f-stop power range. Bright LED modeling light. An exchangeable, integrated Lithium-Ion battery provides up to 215 full-power flashes per charge. It is also fast. At lower power settings, the B2 will produce up to 20 flashes per second. Has a built-in reflector and umbrella holder. Compatible with more than 150 Light Shaping Tools. The B2 consists of two parts: head and battery pack. The head is small and light enough to be put on a monopod or on a bracket on your camera. The battery pack itself comes with a handy carrying bag that can be put on your shoulder, belt or hung on a stand.

| Product no.	Description	Price € exl. VAT
901094	**B1 500 AirTTL To-Go Kit** Energy 500 Ws. Energy control 2-500Ws (9 f-stop). Recycle time: 0.1-1.9 sec. Flash duration (t0.5): 1/1,000-1/19,000 sec. Delivered with Protective Cap, Li-Ion Battery, Battery Charger 2.8A and Bag XS. Size: 31 x 14 x 21 cm (12.2 x 5.5 x 8.3 in). Weight: 3.0 kg (6.6 lbs) including battery.	€ 1 607

340209	**B2 Carrying Bag** A handy little bag that houses and protects the B2 battery pack. Carry it on your belt or shoulder or hang it on a stand.	€ 80
330226	**Accessory Pouch** For storing accessories such as Air Remotes, chargers and smaller camera accessories.	€ 11
100799	**Protective Cap** (Fits the D1 Monolights and the Off-Camera flashes)	€ 16

Off-Camera Flash
OCF Light Shaping Tools

Products

OCF Beauty Dishes
The OCF Beauty Dish is a collapsible and more portable version of the classic Profoto Softlight Reflector. It creates a creamy yet crisp light, often referred to as a "beauty light." When it comes to bringing out the beauty of your subjects, it is second to none. Since it is tailor-made for on-location photography, the OCF Beauty Dish is compact, lightweight and easy to use. High-quality fabrics and patent-pending design allows you to snap it onto the speedring without having to bendand fumble with the rods.

OCF Softboxes
OCF Softboxes are softboxes tailor-made for fast and easy on-location photography. Like any other softbox, OCF Softboxes create a soft and flattering light. But unlike any other softbox, they are made in a unique material that is both lightweight and easy to fold and unfold. Add to that the fixed diffuser, the patent-pending speedring and the color-coded rods. Put all that together, and you have a softbox that is faster and easier to set up than any other on the market. There are four OCF Softboxes to choose from, each with a unique size and shape: strip, square, rectangular and octagonal. All four can be equipped with a Softgrid for even more precise light shaping.

OCF Speedring
The OCF Speedring is used for mounting an OCF Softbox or an OCF Beauty Dish on your off-camera flash. It is not your everyday speedring, though. Not only is it more compact and lightweight, but the patent-pending design allows you to snap on the softbox without having to bend and fumble with the rods, while the clever color-codes show you exactly how to assemble the unit. The classic Profoto rubber collar and clasp makes it easy to mount the OCF Speedring on the off-camera flash.

ⓘ All OCF Light Shaping Tools may only be used with Profoto Off-Camera Flashes that have a LED modeling light. Both OCF Beauty Dishes and OCF Softboxes require an OCF Speedring that is sold separately.

Off-Camera Flash
OCF Light Shaping Tools

Products

OCF Gels
Add color to your palette with the OCF Gels. There are 20 gels to choose from, ten are color correction gels for balancing your flash with, for instance, sunshine or indoor lighting, while the other ten are color effect gels. Add them to boost your creativity and shape light in color. OCF Gels are pre-cut to fit Profoto Off-Camera Flashes, and mounted in the blink of an eye thanks to a unique and clever snap-on solution. OCF Gels are sold in three different kits. The OCF Color Gel Starter Kit includes the ten most popular gels plus the actual Grid&GelHolder. In addition, there is an OCF Color Correction Gel Pack and an OCF Color Effects Pack, each with 20 gels.

OCF Grid Kit
The OCF Grid Kit is a small and super portable kit consisting of a holder and three different honeycomb grids. Attach any of the three grids in front of the off-camera flash to reduce its light spread to either 10°, 20° or 30°. This gives you a direct, circular shape of light that can be used for many applications, such as accent or hair light, intriguing background effects or simply for controlling stray light. The grids are easily attached to your off-camera flash in a matter of seconds. Each grid can also be used together with the OCF Snoot, the OCF Barndoor and OCF Gels, thanks to a unique stacking system.

OCF Barndoor
A compact and portable light shaping tool that gives you precise control of the light spread. The four barndoors can be adjusted individually and the entire tool can be rotated 360° on the flash head, allowing you to control and shape light in an almost infinite number of ways. The OCF Barndoor is made of a strong glass fiber that makes it lightweight and extremely durable. The OCF Barndoor is easily snapped onto the off-camera flash, ready to be used in a matter of seconds.

OCF Snoot
A compact and portable light shaping tool that drastically reduces the light spread from your off-camera flash. The effect is a crisp and direct light with almost no spill light. The light has a beautiful, round shape, which can be used as hair light or any other application when only a small area needs to be illuminated. The OCF Snoot is made of a strong glass fiber that makes it lightweight and extremely durable.

Continuous Lights
Heads, ballasts, kits & accessories

Continuous Lights

Products

ProTungsten Air
ProTungsten is a single piece halogen lamphead with an output up to 1000W. It is dimmable, silent and has Profoto Air built-in. ProTungsten is compatible with many of the existing Profoto Light Shaping Tools. There are, however, some limitations due to heat. ProTungsten can be optionally fitted with 500W or 1000W halogen lamps.

ProDaylight Heads
ProDaylight heads are HMI light sources, providing a bright, daylight color temperature light, which is ideal for most photo and video shoots. All ProDaylight heads are compatible with many of the Profoto Light Shaping Tools even if there are some limitations due to heat. The heads are powered from the dedicated ProDaylight ballasts, they are dimmable and they can be remotely controlled with the Air system.

ProDaylight Ballasts
ProBallast 200/400 and ProBallast 800 are electronic, flicker-free ballasts that power the ProDaylight heads. They are robust, easy to use and completely silent.

Product no.	Description	Price € exl. VAT
901161	**ProTungsten Air** Including metal transport cap, frosted glass cover and power cable. Max 1000W. Socket Type G 9.5. Color Temperature (max) 3200 K. Input voltage 100V-240V / 50/60 Hz. Dimming 100%-10 %. Size 39 x 13 x 18 cm / 15 x 5 x 7 in. Weight 2.7 kg /6 lbs. NOTE! Halogen lamp not included.	€ 967
901181	**ProDaylight 200 Air Head** Including metal transport cap, frosted glass cover and UV-blocked 200 W bulb. Lamp Life Approx. 200 hours. Socket Type GZY 9.5. Color Temperature 6000 Kelvin. Dimming 100-50% and Profoto Air wireless remote control with ProBallast 200/400. NOTE! May only be used with UV-blocked bulbs! Size: 30 x 10.2 x 16 cm / 11.8 x 4 x 6.3 in Weight: 2.5 kg / 5.5 lbs. incl. cable.	€ 1 594
901171	**ProDaylight 400 Air Head** Including metal transport cap, frosted glass cover and UV-blocked 400 W bulb. Lamp Life Approx. 750 hours. Socket Type GZZ 9.5. Color Temperature 5600 Kelvin. Dimming 100-50% and Profoto Air wireless remote control with ProBallast 200/400. NOTE! May only be used with UV-blocked bulbs! Size: 30 x 10.2 x 16 cm / 11.8 x 4 x 6.3 in Weight: 2.5 kg / 5.5 lbs. incl. cable.	€ 1 870
901172	**ProDaylight 800 Air Head** Including metal transport cap, frosted glass cover and UV-blocked 800 W bulb. Lamp Life Approx. 750 hours. Socket Type G 22. Color Temperature 5600 Kelvin. Dimming 100-50% and Profoto Air wireless remote control support. NOTE! May only be used with UV-blocked bulbs! Size: 39 x 13 x 18 cm / 15 x 5 x 7 in. Weight: 2.3 kg / 5 lbs. without cable.	€ 1 929
901131	**ProBallast 200 / 400** For ProDaylight 200 and ProDaylight 400 Heads. Automatic sensing 200 or 400W flicker free output. Passive cooling. Light Shaping Tools
Style your light to perfection

Hard Reflectors

Product no.	Description	Price € exl. VAT
100785	**Zoom Reflector** (Profoto standard reflector) The Zoom Reflector is one of the most versatile reflectors out there. In short, it can provide light characteristics of a wide angle and a normal reflector and everything in between. Can be used in combination with umbrellas to reduce stray light or be fitted with an optional grid. The Zoom Reflector is the standard reflector delivered with Profoto Acute/D4 Heads and ProHeads.	€ 159
100786	**Zoom-Cap**	€ 23
100671	**Barndoors for Zoom Reflector**	€ 186
900649	**Grid & Filterholder** (for mounting grids on 100785, kit includes 100604 and 100619)	€ 175
100604	**Filter Cassette**	€ 44
100619	**Diffusions Filter 19x19 cm**	€ 10
100651	**Snoot for 900649**	€ 129
100606	**Grid 20 °, 180 mm** (fitted directly on 100785 or on 900649)	€ 99
100605	**Grid 10 °, 180 mm** (fitted directly on 100785 or on 900649)	€ 111
100646	**Grid 5 °, 180 mm** (fitted directly on 100785 or on 900649)	€ 142

900849	**Grid Kit 5, 10 & 20 °** (including bag 100298)	€ 337

Product no.	Description	Price € exl. VAT
100624	**Magnum Reflector** The Magnum Reflector has a normal beam spread but increases the outout with 1 f-stop. The light that is created is strong yet smooth, and although this is not a true focusing reflector, zooming it across the focal point does create interesting lighting effects.	€ 254
100617	**NarrowBeam Reflector** The Narrow Beam Reflector gives the most focused light output of all Profoto reflectors (32° lightspread). In other words, the photographer has very precise control of the direction of the light and can create some truly intereseting effects with the extreme hot spot and the sharp light fall-off.	€ 258
100713	**NarrowBeam Travel reflector**	€ 188
100712	**TeleZoom Reflector** Even though it shares its basic lighting characteristics with the Zoom Reflector, the TeleZoom Reflector is unique in that it allows the photographer to adjust the light spread from 20° at head position 5 to 30° at head position 10. Even illumination and high output add to the versatility of this unique unit.	€ 546
	Accessories	
100618	**Grid 10°, 337mm** (fits Magnum, TeleZoom and Narrow Beam Reflector, not for Narrow Beam Travel reflector)	€ 209
100670	**ProTube, 337 mm** (fits Magnum, TeleZoom and Narrow Beam Reflector, not for Narrow Beam Travel reflector)	€ 639
100715	**Barndoors, 337 mm** (fits Magnum, TeleZoom and Narrow Beam Reflector, not for Narrow Beam Travel reflector)	€ 661

Product no.	Description	Price € exl. VAT
100711	**WideZoom Reflector** The versatile WideZoom Reflector has a light spread ranging from 40° to 70 , depending on the head position, and provides even illumination even at short distances. Basically a modern, zoomable version of the Magnum reflector!	€ 392
100636	**Grid 10°, 280 mm** (for WideZoom Reflector)	€ 204
	Softlight reflector "beauty dish"	
100608	**SoftLight Reflector White (65°)** The Softlight Reflector White, nicknamed The Beauty Dish, gives a soft yet directional light that is often used to provide character lighting in portrait and beauty photography. But the reflector is superb for a wide variety of uses, ranging all the way from product photography to interior shoots. It is also an interesting alternative to the more widely used softboxes.	€ 304
100607	**SoftLight Reflector Silver (26°)** The Softlight Reflector Silver gives a focused light, while at the same time providing soft shadow definition, thanks to its large reflecting area. It is especially suitable for lighting materials or subjects in which the structure should be emphasized. It can also be used to give beauty and fashion pictures a crisp, "sunny" look.	€ 304
901183	**Softlight Kit** (incl. 100608, 100609 and 100714)	€ 566
	Accessories	
100609	**Grid 25°, 515 mm** (for Softlight Reflector)	€ 268
100704	**Glass for Softlight Reflector** (frosted glass sheet to replace deflector)	€ 68
100714	**Diffusor for Softlight Reflector**	€ 43
	Disc reflector	
100654	**Disc Reflector** The Disc Reflector is mostly used in combination with an umbrella to reduce spill light.	€ 83
	7" Grid reflector and accessories	
100705	**7" Reflector**	€ 132
100634	**Grid 10°**	€ 99
100635	**Grid 5°**	€ 112

100784	**Diffusor** (for Profoto Ringflashes)	€ 205

Softboxes

Products

RFi Softboxes
The new line of RFi softboxes come in all sizes and shapes. To ensure full control for the photographer, they have a deeper shape, a recessed front, double-layered diffusers and a highly reflective silver interior. Optional accessories are available for even more precise light shaping.

RFi Softgrids, Stripmasks and Flat Front Diffusors
All RFi softboxes have a recessed front that allows you to attach a Softgrid. The Softgrid reduces the light spread to 50°. In other words, the Softgrid creates a more directed light and eliminates a large amount of spill light, allowing you to shape the light with even more precision. Other available accesories are stripmasks and flat front diffusers. For more info check www.profoto.com.

RFi Speedrings
The new line of RFi speedrings adaptors makes the RFi softboxes compatible with well over 20 different flash brands, ranging all the way from speedlights to high-end studio strobes. Even if you own flashes from many different manufacturers, you now only need one line of Softboxes. The speedring adaptors are designed so that the RFi softboxes can be rotated 360°, allowing the photographer to adjust and shape the light on the fly. The color codes make the softboxes easy to assemble and disassemble. All speedring adaptors are robust and painted with heat resistant lacquer.

HR Softboxes & Lanterns

Products

HR Softboxes & Lanterns

Profoto HR Softboxes are extremely durable, heat resistant softboxes that can be used with both flash and continuous light. Ideal for HD video shoots as well as conventional photo shoots. Available with recessed front (RF) and optional Softgrids. The accessories and speedrings fit both HR and discontinued RF Softboxes.

Collapsible Reflectors

Products

Collapsible Reflectors
Shape sunlight or bounce flash light with our handy Reflectors. The sturdy yet collapsible metal frame is equipped with two ergonomically shaped handles, which make the Reflectors much easier to fold and hold in various positions. Four types of two-sided Reflectors are available: Silver/White, SunSilver/White, Gold/White & Matte Black/White. There is also a translucent screen available to be used as a diffuser. Each of these is available in two sizes: Medium (32"/80 cm) and Large (47"/120 cm).

100969	**Reflector Translucent L** (120 cm/47")	€ 105

Umbrella Deep and Shallow

Products

Umbrella Deep
A deeper shaped umbrella gives you better control of the light spread. It also allows you to focus and shape light by simply sliding the umbrella shaft in its holder. Profoto offers six different deep umbrellas in two sizes and three fabrics: White, Silver and Translucent.

Umbrella Shallow
When it comes to portability and ease-of-use, there are not many Light Shaping Tools out there that can beat Umbrella Shallow. But do not let its size fool you. Umbrella Shallow is remarkably reliable and sturdy for its small size and light weight. Profoto offers six different shallow umbrellas in two sizes and three fabrics: White, Silver and Translucent.

Diffusors and Backpanels for Umbrellas
The optional diffuser is a versatile accessory for Umbrella Deep and Umbrella Shallow. Use the diffuser in combination with the white or the silver umbrellas to convert your umbrella into a softbox and diffuse the light even more. The diffuser is small, lightweight and easy to bring and mount. The diffuser is delivered in a practical bag. The Backpanel is an optional accessory to the shoot through translucent umbrellas. The fabric is white on the inside and black on the outside. You attach it on the umbrella like the diffuser. The result is that there will be no light leakage backwards which might influence the light quality on the subject when bouncing around. Also as there will be less light leakage backwards, there will be more light coming through the umbrella and on the subject.

Giant Reflectors & Giants

Products

Giant Reflectors
The Giant Reflectors are truly parabolic, focusable silver reflectors in three sizes: 180 cm (6 ft.), 240 cm (8 ft.) and 300 cm (10 ft.). The parabolic shape boosts light output and gives a distictly directed, yet soft light. All models come with a designed, semi-hard bag holding the folded reflector and the accessories.

Giant Silver & White
Both Giant Silver & Giant White come in two sizes: 150 cm (5 ft.) and 210 cm (7 ft.). The Silver Giants can be used as a focusable and very large reflector in the studio or on location. The White Giants creates soft highlights similar to a large Octa Softbox. Both the Silver and White versions are delivered in a designed semi-hard storage bag holding the folded reflector and the accessories.

Cine Reflector

Products

Cine Reflector

The Cine Reflector is not just a reflector, it is a reflector system. Together with the different available lenses it provides unparalleled creative control. When using the Cine Reflector with lenses, we recommend using a clear glass cover on the head. The Cine Reflector can be used with most Profoto heads but is especially optimized for Profotos Continuous Lights.

Product no.	Description	Price € exl. VAT
901170	**Cine Reflector LITE** (w/o stand attachment)	€ 1 141

Other Light Shaping Tools

Products

Pro-Box
The Pro-Box is primarily used for lighting small objects with highly reflective surfaces. The Pro-Box lighting is even all the way out to the edges, which means that several boxes can be stacked together to create a larger source. Table stand included for vertical support.

HardBox
As a counterpart to the widely used softboxes, the Hardbox is a unique Light Shaping Tool that reduces the size of the light source to a minimum and creates an extremely crisp, directed light. In addition, the HardBox efficiently eliminates stray light, which results in optimal control even in the most narrow of studios. Can be used with the 5°, 10° or 20° Grid or the Barn Doors for the Zoom Reflector. The Hardbox fits directly on all Profoto flash heads and monolights.

ProFresnel Spot
The ProFresnel Spot creates a directional, concentrated light that can easily be adjusted by moving the lamp head inside the spotlight. The large Fresnel glass provides many possibilities, including lighting effects reminiscent of the classic Hollywood portraits of the Thirties and Forties. 300 mm lens diameter and 42° light distribution.

Fresnel Small
The Fresnel Small projects a clean and crisp beam of light, similar to natural sunlight. The vented yet compact housing comes with a 150 mm (6") glass Fresnel lens, an adjustable beam-angle control and a tilting light stand mount. Filters can be attached to the front of the Fresnel for creative lighting effects. The Fresnel Small attaches to any Profoto flash head without requiring an adapter. It is also very easy to adjust with its built-in iris control.

Spot Small
The Spot Small is a high-quality, optical focusing spot that can be used to project patterns or masked shapes onto a subject or background. Ideal for theatrical lighting effects, for instance! The Spot Small projects a spot as small as 5 cm diameter from a distance of 0.9 m, and attaches to any Profoto flash head or monolight. Accepts M size (66 mm) gobos.

StripLights

Products

StripLights

The StripLights are favored by many beauty-, people-, still life-, car- and furniture photographers. The StripLights create sharp outlines and shadows with soft edges. In addition, they create a perfectly even illumination with no visible light fall-off. They can also be stacked together to create larger light sources. The StripLights have an integrated stand adapter and can be used with either the standard frosted plexiglas cover or the optional clear front cover for faster light fall-off and more character. Depending on the size of the StripLight, they come with either

one, two or three flashtubes. The fact that each flashtube has its own power cable allows for distinctive graduation control when working with the two larger units. All three StripLights offer fully proportional modeling lights and optional Barn Doors for stray light control. More info is available at www.profoto.com
Note: 120V versions are compatible with Pro generators on all markets. 230V versions are compatible with Acute2 and D4 on 230V markets. The only difference is the modelling lamps so the version can be easily switched at any time.

FresnelSpot and MultiSpot

Products

FresnelSpot

The FresnelSpot is a spotlight that creates a light with sharp, deep shadows, highly saturated color and a distinct movie feel. When used from a shorter distance, the shadows become more open and the light fall-off is reduced. With a large 175 mm diameter Fresnel lens, the FresnelSpot offers lighting adjustments between 10° and 50 °. The unit also has integrated support for filters and masks. The Profoto FresnelSpot comes with a 300 watt modeling light and can handle up to 2400Ws through its incorporated flashtube. Note: 120V versions are compatible with Pro generators on all markets. 230V versions are compatible with Acute2 and D4 on 230V markets. The only difference is the modelling lamps so the version can be easily switched at any time.

MultiSpot

The MultiSpot creates a small and handy directional light, perfectly suited for still life-, food- and beauty photography. With its sharp and easy-to-control light beam, it is also the optimal tool for creating accent or trans-illumination light with deep shadows and rich color saturation. The MultiSpot comes with a 300W modeling light and can handle up to 1200Ws through its incorporated flashtube. Note: 120V versions are compatible with Pro generators on all markets. 230V versions are compatible with Acute2 and D4 on 230V markets. The only difference is the modelling lamps so the version can be easily switched at any time.

ZoomSpot, StillLight and StickLight

Products

ZoomSpot
The ZoomSpot is a large, focusable tool that can be used for background projections, as accent light over large distances, or for creating interesting stage light effects. The actual zoom lens can adjust the light spread from 15° to 35° and has a revolving lens unit to simplify lighting adjustments. The ZoomSpot also has an integrated support for filters, gobos and masks. The ZoomSpot comes with a 300W modeling light and can handle up to 2400Ws through its incorporated flashtube.

StillLight
The StillLight is a large hard-sided light source with a perfectly even illumination and extremely low light fall-off from corner to corner. The StillLight creates a soft, wrapping light with exceptional tonal reproduction. This makes it versatile enough to photograph everything from skin tones to highly reflective objects, such as glass or jewelry. It can be used with Acute, D4 and Pro generators. Depending on the size of the StillLight, they come with either three or four flashtubes. The fact that each flashtube has its own power cable allows for distinctive graduation control when working with the units.

StickLight
The StickLight is a small and handy lamp head for car-, furniture-, interior- and people photography. It can be placed behind or even inside a car or cupboard to create sublime lighting effects. Note: 120V versions are compatible with Pro generators on all markets. 230V versions are compatible with Acute2 and D4 on 230V markets. The only difference is the modelling lamps so the version can be easily switched at any time.

Profoto – The Light Shaping Company

Profoto was founded in Stockholm in 1968 by photographer and engineer Eckhard Heine and photography equipment retailer Conny Dufgran.

Their relationship began when Conny sold Eckhard a flash unit that didn't work. Annoyed with the faulty unit, Eckhard went home to invent a new type of flash. He returned a couple of weeks later with a superior unit. A few years after that, Eckhard and Conny exhibited the first Pro-1 generator at the Photokina trade show in Cologne. It was an instant success. Profoto was born. With a bang.

Today, our products are used by the best in the industry. Whether it be on a billboard or in a fashion magazine, there's a good chance that the image you are looking at was created with the help of our lights.

But even though we continuously refine and improve our equipment, we stay true to Eckhard's and Conny's ideals. We still believe that a Light Shaping Tool should feel right, sound right and be aesthetically pleasing. Just like the painter's brush or the musician's instrument, its form should reflect its function. Hence, we will never let technology rule over the artist. On the contrary, we make tools that help photographers turn their ambition into reality.
